THE **NEW** INFLUENCERS

"What's my style is not your style, and I don't see how you can define it. It's something that expresses who you are in your own way. Over the years I have learned that what is important in a dress is the woman who's wearing it. Girls do not dress for boys. They dress for themselves, and of course, each other. If girls dressed for boys, they'd just walk around naked at all times. They're well-dressed, but it's not much to do with having a good sense. It's a question of good balance and good common sense. A little bad taste is like a nice splash of paint. A little bad taste is healthy, it's healthy, it's physical. I think we could use more of it. No taste is what I think we could use more of it. No taste is what I think we could use more of it."

FASHION LIFE

"Fashion you can buy, but style you possess. The key to style is learning who you are, which takes years. There's no how-to road map to style. It's about self expression and, above all, attitude."

THE COMFORT ZONE

Just as the weather warms up, so do the fashion choices. The comfort zone is a place where you feel at home, where you can relax and be yourself. It's a place where you can express your personality and style without any constraints. The comfort zone is a place where you can be your true self and feel at ease. It's a place where you can let go of all your worries and stresses and just enjoy the moment. The comfort zone is a place where you can find peace and happiness. It's a place where you can be your best self and feel like you belong. The comfort zone is a place where you can be your true self and feel at ease.
