“Fashion is often a reflection of the world we live in, and women prefer to wear clothes that are not only beautiful but also comfortable. They are always looking for the perfect blend of style and comfort. It impacts the way we live and the way we think. It is a lifestyle, not just a fashion.”

“Women on stilts is a reflection of our social life, that women prefer to wear uncomfortable garments. They are always hiding the weakness in their clothes. It shows the kind of woman who wants to be a certain way, what she is wearing.”
